Youth Producer Health Record Instructions

Goal: These records should reflect ALL treatment and care given while the animal is under YOUR care, including all animal health products and medicated feeds used.

******DO NOT include health products administered by the breeder or seller of the animal; this information should be kept separate in your records. As the youth producer, the youth raising, showing and marketing the animal, you will sign this form to verify the health products administered to the animal while in YOUR care.******

Step 1:
Obtain an Animal Health Record for your animal prior to purchase and complete the "Youth Producer" information box.

Step 2:
Obtain breeder information. Be sure to include the date you purchased your project animal. Some breeders are involved in quality assurance programs. If so, include relevant information.

Step 3:
Obtain animal information from the breeder, such as identification number, breed, date of birth, etc. Be sure to leave enough space on the identification line for show number if tagged during show.

For Steers: Include brand and location (L=left, R=right, H=hip, S=shoulder, and R=rib). Example: RH = right hip brand. Include preconditioning if provided.

Step 4:
This step is to be kept up-to-date throughout the care and ownership of your animal when using ANY animal health-care products.

WITHDRAWAL TIME: is the amount of time from the last treatment until the animal can be marketed. It is found under the "warning section" of the label.

Step 5:
Record any feeds that contain medications and their withdrawal time from last feeding. Do not use any feed that is not specifically formulated for the specific species you are feeding.

Step 6:
Youth and their parent or guardian will complete the certification box when they transfer the animal to the fair or show.

Market Beef Health Record

Beef Quality Assurance

Youth Producer:
Name: Emma Winner
Address: 111 Blue Ribbon Rd. Champion, WA 11111
Phone: (111) 111-1111
QA Program: Grant County
Date Certified: 2/1/02
Fair: Jr. Show-ML

Animal Information (Obtain from producer):
Identification #: Fair-26 Herd-179
Brand: RS Location: LH
Breed/Color: Angus X-Black
DOB: 1/2/02 Castration Date: 3/15/02
Date Weaned: 7/20/02 Sire ID: PG3211
Born in: United States-WA (Country)

"Produce healthy and safe beef products by being a knowledgeable and responsible producer"

Date Purchased: 9/20/02

QA Certification: WA-MQA
Date Certified: 1/28/01

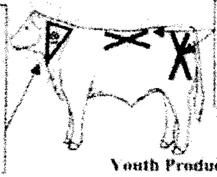
Treatments & Dewormers (Date & Time)	Condition Being Treated	Estimated Weight	Treatment Administered (Medication dispensed, amount and route of administration)	Drug's Lot Number	Name (Person giving treatment)	Withdrawal Time	Withdrawal Complete (Date & Time)	For prescription or extra label drug use, list the veterinarian's name, address, and phone
9/23/02	Parasites	750	Ivomec Pour-On 34 ml	IVI2713	Emma	0 days	9/23/02	
9/23/02	Growth Promotion	750	Ralgro Ear implant 1 Dose	R271614	Emma	0 days	9/23/02	
12/7/02	Bloody Diarrhea	850	Oxytetracycline, IM 30 cc	E795441	Dr. Jones	14 days	12/21/02	Dr. Jones 111-111-1111
12/7/02	Fever	850	Sulfa Dimethoxine Oral 15gm	S491624	Dr. Jones	30 days	1/7/03	Dr. Jones
3/1/03	Parasites	1200	Ivomec Pour-On 55 ml	IV19413	Emma	0 days	3/1/03	

Medicated Feeds *Remember to document ALL medicated feeds and withdrawal times*

Dates Fed	Medication Name (Medication added/included in feed and approximate amount of medication)	Withdrawal Time (Instructed)	Withdrawal Complete (Date & Time)
9/23/02-4/15/03	Top Show Choice Rumensin 30g/ton	0 days	4/15/03

Dates Fed	Medication Name (Medication added/included in feed and approximate amount of medication)	Withdrawal Time (Instructed)	Withdrawal Complete (Date & Time)

Give Subcutaneous (Sub-Q) injections under loose skin of neck, using the tented method. Give Intra-muscular (IM) injections in the neck. If label indicates a choice, use Sub-Q (under the skin) injections.



NEVER- Inject into the round or the loin area.

Youth Producer's Copy

I certify that I produced this animal. It was not fed any "prohibited" mammalian protein (i.e. meat & bone meal), per FDA regulation, CFR Title 21, and I have listed ALL products and treatments they received while in my care and all withdrawal times have been met.

Youth Signature: Emma Winner Date: 4/15/03
Guardian Signature: Mark Winner Date: 4/15/03

Prepared by: Sarah M. Smith, Jan Busboom, and Jean Smith

*****VERY IMPORTANT**--It is against federal regulations to feed prohibited mammalian protein, such as ruminant meat and bone, to ruminant animals (cattle, sheep, or goats).***

NOTE: *Many fairs and packing plants are requiring youth to verify health-product and feed compliance. You may not be able to sell project animals at the fair or livestock show if you do not accurately complete the project animal health record. Animals are randomly tested for potential violations that may result in a monetary fine and/or criminal prosecution. Keep a copy of the health record for at least six (6) months after sale, and preferably a year.*
